THE PROJECT

SpanIT is an Erasmus+ initiative aimed at promoting the integration and inclusion of migrants and learners from disadvantaged backgrounds by introducing innovative approaches to language education. The project seeks to enrich classroom experiences in diverse, multiethnic, and multigenerational settings by providing educators with fresh tools and methodologies.

A central feature of SpanIT is the Linguistic Toolkit—an immersive educational resource that simulates real businesses and services based in Palma de Mallorca and Capri Island. Using visual aids and interactive tools, this toolkit helps learners build confidence in both technical and everyday language, equipping them for real-world communication and local employment opportunities. Through hands-on pilot courses, a practical manual on inclusive teaching practices, and a series of videostories that highlight international collaboration, SpanIT encourages cultural dialogue, fosters teamwork, and strengthens the sense of European identity. At the same time, it supports pathways to employment and actively works to reduce discrimination.
